How did I become the sort of person who has favorite heirloom tomatoes and feels lucky to be alive in an era when real food is making a widespread comeback?

That's a beautiful tomato. I haven't tried growing that particular variety. I was picking Robesons this morning, though. And Hillbilly, which is another pretty and tasty heirloom type.

My BW had for breakfast a tomato, pesto & mozzarella saandwich; the tomato came out of our back yard, as did the basil for the pesto.

Sadly, we do not have cows or goats, so we had to outsource the Mozz.

Mmmm. Isn't it amazing how much we appreciate these luscious things, after the decline and fall of the supermarket... can't even call it a tomato anymore, can we?
